

RELAX

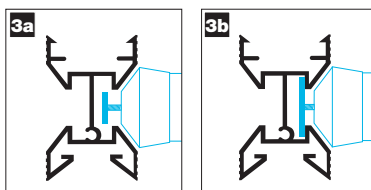

FLOOR TO CEILING STANCHION

H2700mm

TOOLS REQUIRED:

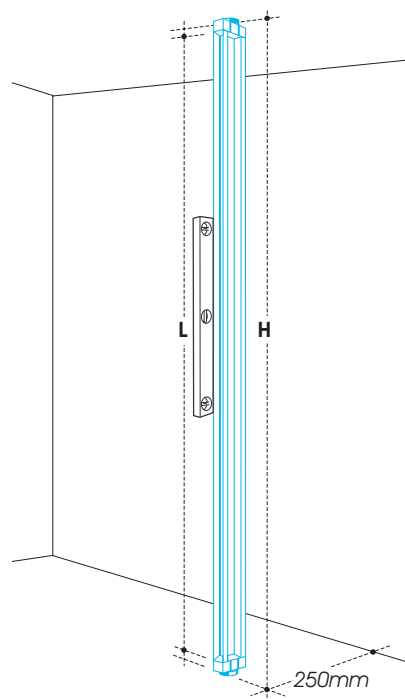

TOP TIP:

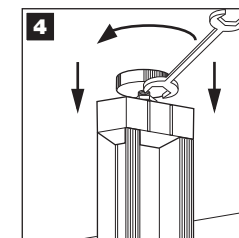

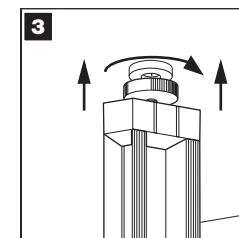

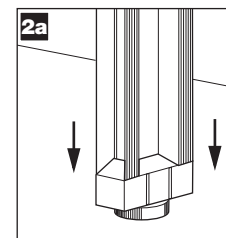

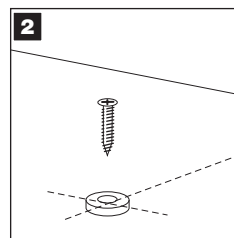

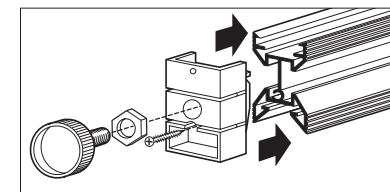

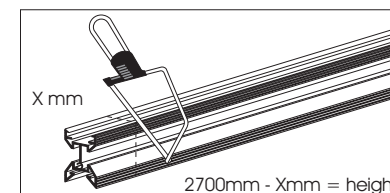

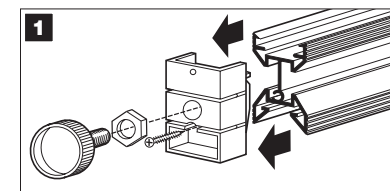

* **Fitting to the Stanchions.** When attaching the brackets to the Stanchion ensure the washer, which sits within the Stanchion groove is rotated enough for a secure fitting (3a - 3b).

FLOOR TO CEILING STANCHION W2700mm

SSR-2020-106-AN

$H - 80\text{mm} = L$
(ie: $H2560\text{mm} - 80\text{mm} = L2480\text{mm}$)

* **Fitting onto of carpets.** When the system is in use the weight of garments and other items cause the Stanchion to sink into the carpet - at this point the ceiling screw cap (3 - 4) needs to be adjusted to ensure a secure fitting.
